CURLING & SKATING SEASON COMMENCES AT LOCAL RINKS

The curling and skating rinks are open for the season and by the look of things winter sports enthusiasts will have a long season ahead.

The curlers commenced play at the local rink last Saturday night and Henry Erb, the caretaker, has two dando sheets of ice prepared.

The skating ice has also been completed and skating is scheduled to commence Thursday if all goes well.

Plans at the skating rink this year call for a band and public address system.

CURLERS PREPARE BY ELECTING OFFICERS

At the curling meeting held in C.E. Reiber's office last Wednesday night plans were made for an active season and it is expected that 16 rinks will be formed to compete in the season's play.

The following officers were elected:

President, Irvin Klein.
1st Vice Pres., Jas Caithness.
2nd Vice Pres., Herb Sinclair.
Secretary, W. W. Gillrie.

MR. AND MRS. LOU BOLES NOW SAME AGE—65 YEARS

Old friends and neighbors called on Mr. and Mrs. Lou Boles on Sunday, November 18, it being Mrs. Boles' 65th birthday. Lou was 65 last May, so now they are both the same age. Mrs. Boles having caught up with him.

At 6 p.m. all sat down to a fried chicken dinner which was enjoyed by all. Mrs. Boles received several lovely gifts, and many phone calls on this occasion.

Mr. and Mrs. Boles moved into their new home on November 2nd.

LIBERAL ASS'N COUNCIL TO MEET AT RED DEER

The General Council of the Alberta Liberal Association has been called to meet in Red Deer on November 28th at 10:30 a.m. A large and representative meeting is expected and all visitors are cordially welcome.

REV. E.H. BIRDSALL CONDUCTS WORLD MISSIONARY MEET

Mrs. W. E. Birdsall received a letter from her son, Rev. E.H. Birdsall, pastor of Central United Church, Edmonton, concerning the World Missionary Conference just concluded in Philadelphia and was considered a real success, with 20 different missionaries present from all parts of the world. Rev. Birdsall was secretary of the Conference and one of the speakers was Rev. A. Traub of Didsbury, who has done missionary work in Africa. Mrs. A. Traub, who has also been in Africa on missionary work, was another speaker.

NOTES FROM THE EAST

Mrs. Barney Viney spent the week visiting at the home of her parents, Mr. and Mrs. W.H. Coates.

Mr. and Mrs. Tom Hansen of Innisfail spent the week end in Olds visiting with Mr. Hansen's parents.

Mrs. Evelyn Dowell was a Sunday guest with Mr. and Mrs. Bob Eckel.

We were sorry that the Neapolitan Club thought it necessary to postpone their dance. No definite date has been set for this affair.

Fred Metz, councillor for the east, is going as delegate to Calgary to attend the 37th annual convention of the Alberta Association of Municipal Districts.

Mr. and Mrs. Boles called to Sunnyside last Friday evening to be the matron for a box social. And don't forget, he will be present at the W.I. Bazaar to auction off the home cooking, fancy work, knitting and sewing, etc., coming on Nov. 30th.

Mr. and Mrs. Clarence Cimberley, of Innisfail, have a large farm until such time as they can obtain living apartments in Calgary.

Mr. and Mrs. Herb Zeidler attended the wedding of their brother, Lloyd Cimberley, to Miss Pauline Lukaskins, on Wednesday, November 14th. Mr. and Mrs. Cimberley came to hold the wedding dance in the Empire Ballroom at Lone Pine Hall.

We are very sorry to hear that Mrs. Chas. Mardon had the misfortune to run the sewing machine needle into her finger, and in the excitement she pulled the finger out and tore the nail practically off. We hope she will not be long before it is healed again.

Bruce Shells had a ball on his arm and thought he would hurry it along so he picked it open, and in a matter of twelve hours had to be taken to town to the Doctor, as he had to have it sewed back on.

Mr. and Mrs. Lester Barnes' wedding dance at the Mountain View hall was a real success in spite of the cold weather and bad roads. Everyone reported such a good time and a real nice crowd. Congratulations to the newlyweds and we wish them success and happiness.

LIONS CLUB MEMBERS ENTERTAIN LADIES

Last Thursday evening about 50 Lions and Lionesses sat down to an excellent dinner in the Lions hall. This was the first ladies' night held in the local club since the renovation of the hall has been completed. After dinner Art Reiber gave a very inspiring address on the work of service clubs, stressing in particular what can be accomplished by co-operation. Four members from the Elbow Valley Club were present and added to the enjoyment of the party with Leo, the Lion. Leo answers all questions put to him. If the answer is no, nothing happens. If it is yes, his tail raises and his eyes flash. The party also enjoyed numbers by the Didsbury Lions. Misses Anna and Miss Eva.

In the "Power Lines on Highways" contest the ladies' winners were presented with a plaque and a gift.

Mr. Jackson, pianist on the council accepted his resignation.

Two surveys were dealt with and approved. One west of Didsbury providing for the purchase of three acres for a gravel pit, and the other on the Olds town line, providing for purchase of a two-acre gravel pit.

Application was made under the Aid and Infirm Act for a government grant to cover claims made on accounts as from August 15, 1945, to the Evanside Home at Gleichen.

Reindeer was made for a reduction in the amount of \$1,000 in 1940 by the former Municipal District of Mountain View No. 310 for the sum of \$566.57. A discount was allowed for payment of this account.

Reeve A.L. Hogg, Reeve B.C. Trimble, and Councillors Fred Metz and F.J. Niddrie were appointed delegates to attend the Municipal Council meeting being held in Calgary, November 28th.

The assistant secretary was also instructed to attend this meeting.

The government proposal that the Municipality pay 50 per cent of all uncollected government guarantee

Petition Municipal District For Power Lines on Highways

W. M. McCULLOCH Buys Nurses Home in Didsbury

need relief was turned down and Council decided to continue to pay the department as collections are made.

On advice from Councillor Chas. Fox a request was forwarded to the Prairie Farmers Assistance Board asking for an inspection on 29-37-4.

By Law No. 39 was passed providing for the sale of the nurses home in Didsbury to Mr. W.M. McCullough.

The secretary, Mr. A. Briscoe, being absent owing to illness, the Council sent a letter expressing their regret and extending best wishes for a speedy recovery.

The inspectors report was presented by Reeve A.L. Hogg for the consideration of Council. The report was discussed and the secretary advised to carry out the recommendations made.

A petition was received from residents in Townships 29 and 30, in Range 27, requesting the Council to grant permission to the Calgary Power Company to build transmission lines along highways in above townships in order to furnish electrical energy in that district, and Council granted this permission.

Enclosed with the petition was a mounted as follows: Division I, R. Wygle and Wm. Murdoch; Division 2, Roy Good and Ray Wood.

Tax consolidation agreements, a number of which were paid in full, were submitted to council for approval.

Accounts and pay sheets were passed and the meeting adjourned with the next meeting date set for Thursday, December 13th.

SMART FOLKS

ARE DOING THEIR XMAS SHOPPING NOW,
We Have a Limited Supply of the Following Items

Which Won't Last Long.

SILVERWARE CHESTS

in 1847 Rogers, Community, Wm. Rogers and Tudor Plate. We have a nice selection of Chests from

\$18.95 to \$34.50

(plus tax)

INTERNATIONAL STERLING

We have a very good selection of all the most popular items. Also Boudoir Sets, in prices ranging from 1.00 to 39.50 (plus tax)

The Housing Problem

HOUSING IS REGARDED as Canada's greatest post-war problem. Congestion and lack of living accommodation is felt most severely in the large cities, but there is almost no community which has not been affected by the serious housing shortage which has developed here since 1939. It is estimated that by the end of the calendar year following VE-Day, 300,000 new dwellings will have been completed, but it will have been necessary to plan considerably larger programs to meet the demand for houses in the following years. In addition to the need for new homes, there is much repair work to be done on dwellings and buildings, since labour and material for normal maintenance has been unavailable during the war. Hon. J. L. Biley, Minister of Finance, recently told Parliament that Canada is on the verge of a very large, and possibly an unprecedentedly large housing program, and such a program will no doubt affect many of our post-war problems, through the demand it will create for labour, raw materials and other essential supplies.

Vast Program In Britain

While the housing problem here is extremely serious, in Great Britain the situation is considerably more grave. That country was already facing a shortage of living accommodation in 1939, and during the war years this condition was greatly aggravated, since no new construction was possible, and in addition, many millions of homes were destroyed by enemy bombs. It is estimated that in the London area alone, almost two million houses were destroyed or damaged and that of these, forty-two thousand were totally demolished, and that in spite of an intensive drive to repair those houses which were only partially destroyed, it was reported that there are still seven hundred thousand damaged houses in the London area. Similar conditions exist in many other parts of Britain, and the government there has undertaken a vast building and town-planning enterprise as part of its reconstruction program.

Provides Work For Veterans

In re-building its homes and communities, the British Government is endeavoring to improve living conditions for the people, and to create planned communities. In all parts of the country this "planned reconstruction" is taking place, and the British Minister of Labour and National Service, Mr. Isaacs, stated recently that by next June, approximately eleven hundred unemployed men will be employed in the building and civil engineering industry. The houses and buildings to be constructed will be based on the latest scientific knowledge, since systematic building research has been carried on for some years, in anticipation of this time. This research has revealed many new facts concerning building materials, prefabricated houses, equipment, and other important factors. A program for training many thousands of ex-service men for construction work has also been commenced, and in addition to alleviating the housing shortage, Britain's plans for re-building are also aimed at providing long-term employment on a large scale. We in Canada may watch with interest the progress of this vast undertaking.

THE MODERN VIEW

A boy pupil at a school in Adelaide, Australia, was asked who Sir Francis Drake was, put up his hand and said: "Please, Miss, Donald Duck's father."

Under Regulations

Young Captain Found Army Official

Too Smart for His Boots

A young footman, promoted captain, noticed that the date of his promotion as it appeared in the London Gazette was April 3, 1941, instead of 1941.

Eager on by his friends in the mess, he applied to the paymaster for pay advances dating back to the year 1940.

Weeks later he received this reply:

"Your application . . . has been found to be in order under King's Regulations and your account accordingly has been credited with the sum of \$39,569 (\$179,337). . . .

Young Captain was evidently convinced that you are the son of the survivor from the Battle of Hastings, where 20,000 horses of an estimated value of \$2 (89) each, were lost by negligence.

Under King's Regulations the responsibility for payment of \$40,000 therefore falls upon you. I have accordingly deducted \$4000 to the extent of a net debit of \$1."

A War Office official who told this story says there is a moral in it for every soldier: you can't beat the book.

FLOATING HARBOR

The floating harbor that liberated Europe, known as Mulberry, took 100,000 men seven months to build. Telescopic roadways 80 feet long were a remarkable feature of Mulberry, the artificial harbor built and used in D-Day. The English themselves flexibly to the wave action in the Channel. There were 23 piers, each weighing approximately 1,000 tons.

Price Control And Rationing Information

Q.—My husband will be returning from overseas within the next week. Will I receive rationing for him for the thirty days he will be home before he is discharged from the army?

A.—Service-men on demobilization leave will be presented with a combination priority and purchase and ration book certificate, which means that those on discharge leave may apply immediately, either in person or by mail, to their nearest local ration board or ration branch, for a permanent ration book.

—Q.—May I purchase a long evening dress?

A.—Restrictions on the manufacture of wedding gowns, dinner and evening dresses and evening skirts have been removed, and you may now buy a long gown if you wish.

Q.—I am a farmer and slaughter for my own use only. Do I have to report this to the Wartime Prices and Trade Board?

A.—Yes, you must register with your nearest local ration board, and send in coupons to the local ration board to cover the amount of meat you use at the rate of four pounds carcass weight per coupon.

Q.—How can I obtain the price ceiling for a car I wish to sell?

A.—Get in touch with the nearest Wartime Prices and Trade Board office and they will give you the price ceiling.

Q.—Please send your questions or er your request for the pamphlets "Consumers' News" or the Blue Book in which you keep track of your consumption, and also containing the names of the paper to the nearest Wartime Prices and Trade Board office in your province.

RED CROSS SHIPMENTS

Twenty-one countries received 578,082 Canadian Red Cross cases of supplies and relief goods in the first nine months of 1945. About 230 ships had been used in transporting the goods, only 12 less than for the whole of 1944.

Answer to Last Week's Puzzle

Indians In Canada

Census Taken Last Year Shows Population Not On Decline

Contrary to popular belief, Canada's Indian population is not on the decline.

Hon. J. A. Clark, Minister in charge of Indian Affairs, has announced that the Indian population is 125,666 and is increasing at the rate of 1,500 per year. Living in the prairie provinces are 42,522 Indians.

The minister said that according to a census taken in 1941, 15,034 Indians were residing in Manitoba, 11,538 in Saskatchewan, and 12,111 in Alberta.

The distribution through the other provinces is: British Columbia, 25,315; Ontario, 32,421; Quebec, 16,914; Nova Scotia, 2,074; Prince Edward Island, 2,656; Yukon, 1,531; Northwest Territories, 3,816.

There are 7,658 Indians over the age of 65, while there are approximately 5,000 over 70.

The Indians of Canada have 5,500,000 acres of land of their own, and number the best agricultural land in Canada, however there is a comparatively small acreage under cultivation. In 1944 land under cultivation amounted to only 188,828 acres.

In addition to the reserve lands owned by the Indians, Mr. Clark said the Indian department in recent years leased from provincial governments 35,000,000 acres for the establishment of beaver reserves and the propagation of muskrats.

Doll's Wardrobe

Clothes For Dolly

BY ANNE ADAMS

If you favorite little girl wants to start a pattern book for dolls' clothes, have her buy Pattern 6004, doll wardrobe, to have it ready for Christmas. It has everything cost to get started.

Pattern 6004 is available for dolls measuring 18 inches tall, 26, 22 and 24 inches. For cartridges, see patterns.

Send twenty cents (20¢) in coin stamps cannot be accepted) to Anne Adams, 1615 St. Vital Ave., Winnipeg, Man.

Send pattern book and \$1.00.

Send pattern book and \$1

Describes Flying The Atlantic Under Modern Conditions As More Pleasant Than A Train Trip

(Robert Stern in the New York Herald Tribune)

THROUGHOUT the war, correspondents described Atlantic crossings in trimships, Army air transports and bombers, telling of discomfort, adventure and heroism. Now the Atlantic is crossed daily by civilians in flying boats in about the same time (between New York and Ireland) as it takes by rail to go from New York to Chicago, and in considerably greater comfort.

The first stories of these post-war flying boats are also their valencies, for they are already disappearing, replaced by hand-based planes, one-third again as fast, and carrying twice the number.

The new planes are to have reclining seats, not berths, and in them travellers can be lulled down curtains as in Pullman sleepers, and prop themselves upon their elbows at night to look out of windows at the airplane's wing and engine, with the lights of the sky above, and a sea of cloud beneath, and the flash from the motors shooting past like a meteor from time to time, as the night engineer shifts from one fuel tank to another.

The flying car which brought me to Europe has a variety of seats, from two Chinese members of the French mission returning to Paris, American and Swiss business men, a State Department courier, a uniformed Army scientific consultant, a lieutenant colonel of the United States Army, Guardsmen and W.E. Burroughs, author, writer.

One striking feature of an eastward flight, in which you are racing toward the sun, is that your meals are closer together than on land, because it gets later faster.

Above 10,300 New York time, soon after we had left, fell the grayish dusk of Cape Cod and were over a sea that seemed almost as blue as the Mediterranean, the strewedness said it was time to have lunch so that we could be ready for dinner at Botwood, Newfoundland, the first stop.

She asked us whether we wanted Manhattan martinis, or sherry, and her martinis were as good as the best obtainable in New York. They were followed by a piece of steak at least two inches thick, vegetables, ice cream and coffee. "Watch your coat, as it gets rough," she said, but it didn't.

The airplane is divided into compartments, each seating eight and sleeping four, with four seats, two and two on each side of the aisle, as in a Pullman, and all the conveniences of a bus or train, including a washroom, smoking, telephones, etc.

Smoking (cigarettes only) was permitted in the centre compartment, away from the gas tanks, except when the plane was on the water, or the barbs were made up.

The sea soon disappeared under clouds, in which two unseparated white caps were over a wooded country with hundreds of lakes, which was Nova Scotia. Then another sea crossing, and Newfoundland appeared—a rugged, brown country of rocks and water with no signs of human life at any part of the coast over which the airplane passed on its way across the island.

A Newfoundland, on his way home from a business trip to New York, a second passenger for Botwood only, watched for his hometown, but it was not visible in the darkness, so early for the arrival of Botwood, a bleak little fishing village with a large R.C.A.F. post, where the passengers had dinner at 5 p.m. Newfoundland time, an hour and a half later than New York time.

Groceries were necessary ashore and the return to the heated airplanes was like a return home. The stewardess and the purser, who was the title she gave to a man who seemed to be her assistant, started making up the sandwiches, while the almost color had disappeared from the sky, and the Chinese, Swiss and English passengers were ready for bed immediately.

She left one smoking compartment made in which three passengers and an Englishman seated down to a bridge game, while the State Department and carrier read a detective story, and to these five she served ham and cheese sandwiches and hot coffee.

The captain said the next morning that he had flown almost to Ireland to avoid the weather, and one of the passengers was aware of the weather except for a very brief bumping period at about 11 p.m. London time, to which most of them set their watches before retiring.

The arrival at Foynes, Ireland, was at about 9 a.m. Irish time (one hour later than London time, to every one's consternation) after eighteen hours of flying from La Guardia Airport.

It was no more tiring than an overnight trip by train and much more pleasant.

THE LAND OF TULIPS

Tulips did not originate in the Netherlands, but were imported there from Persia 375 years ago. In the old village of Boskoop, there are well over 600 tulip nurseries.

The ancient Greeks and Romans used to enjoy highly perfumed food.

Operates An Airport

Young U.S. Flier Is Beginning To Realize Peacetime Dream

At Versailles, on the edge of Missouri's Ozarks, is a home grown airport and the beginnings of a young flier's peacetime dream.

On a 76-acre pasture he leased from his parents, 25-year-old Charles Harris is operating a landing field for automobile tourists and sportsmen.

Since he opened the field for use July 1, nearly 250 planes have dropped in.

The field has a natural four-way drain that keeps the runway usable even in rainy weather. The length of the runway is 3,000 feet, 2,500 feet parallel to the prevailing south-east winds. The other two strips are 2,100 feet long. All are 300 feet wide.

Harris has installed fueling and oiling equipment, has one hangar built and will have two more finished this fall.

So far he hasn't set any charges for use of the field and its parking until he could get the property damage, public liability and aircraft insurance he carries.

He is saving his money to buy a

C.W.A.C. UNIFORM REMADE

Removing insignia, epaulettes and applying braids and buttons by hand is C.W.A.C. work. The 100 uniforms made in Canada cost \$20 each.

The cost of the alterations—only \$2 for

Have To Be Paid

Canada Must Meet Bills Covering Obligations To Servicemen

Canada never can write PAID across all her war bills.

She never can write PAID across the winter clothes which mark the graves of her dead in far-off soil.

The debt to the unnamed and blind and to the bereaved, cannot be erased by money.

But there are obligations which have to be measured in dollars; bills which must be paid for care and for health.

Many thousands of servicemen have yet to be brought home. While waiting for ships they must be paid, fed, housed. Shipping is costly, rates of return veterans must be paid and their service gratuities and re-establishment credits trained for new jobs given a good start in civilian life.

Vast sums must be spent on the nation's reconversion to a peace program; in adding strength to the economy, a stability that will in time contribute to general prosperity.

For a B.C.P.C. play, "In Search of the Golden Fleece," written by the Goldie family set in the backwoods and stuck to find out all he could about wool and cloth-making in many of these towns. He went to Lincoln, one of the nine staple towns of England, where there was a Guild of Weavers as long ago as 1300. Robert Goldie, a great-great-grandson, was born there, while his father was a good sheep farmer, he visited Ely Abbey, then acting on a fancy to see one of the old pack-horse roads he went to Halifax, where, in the fifteenth century, more cloth was woven than in any other West Riding town.

Through Shattock, Skipton, Caine, and Bradford he made his journey, tracing the romantic story of wool, and also that of Sir Titus Salt, who helped to build up the wool trade in Bradford.

The script of the play—written by Miss Bertha Lonsdale—covered a period of a thousand years, from 807 to 1936.

Stamp Mystery

Danish Government Puzzled Over Stamps Issued in Greenland

Early this year a new series of Greenland stamps were issued, and philatelists all over the world eagerly bought up copies of the new issues.

Now Danish papers ask, who were the sponsors of these stamps, and who made the drawings?

Apparently the Danish government are not aware of their issuance and Danish papers point to mistakes in the prints, such as for example on the 30 ore stamp, the dog team is a drawing of teams as used by Canadian Eskimos and not used by Canadian Eskimos and not used on Greenland at all. Who were the sponsors?—Scandinavian News.

DEVELOPED TOO LATE

LANDMINES were developed and developed a device just before the end of the war which was intended to explode land mines at the moment they were discovered by Allied mine detectors, the British ministry of supply disclosed. The development was too late to be of much aid to the Germans, however.

THE LAND OF TULIPS

Tulips did not originate in the Netherlands, but were imported there from Persia 375 years ago. In the old village of Boskoop, there are well over 600 tulip nurseries.

The ancient Greeks and Romans used to enjoy highly perfumed food.

HONG KONG NAVY SENTRY GETS HELPING HAND—Proudly welcoming the British back to Hong Kong, a Chinese boy stands beside a Royal Navy sentry after British forces reoccupied the city after nearly four years.

World Food Shortage

Some Wartime Changes Shown In Food Production

In regard to wartime changes in food production, the world's total food production increased during World War II, states "Agriculture Abroad". The increase was especially large in "direct crops", sometimes to the detriment of livestock products, although the relative gain did not exceed the estimated increase in the world's population. Once production had been expanded, there followed a tendency to continue the increase, but as the war neared its end, military operations became intensified and actual invasion temporarily disorganized production in many lands in Europe.

As a consequence, a temporary acute shortage of food, especially of meat, was experienced in Britain at the end of the war. The Combined Food Board at Washington estimated the 1945 deficit of the world, exclusive of Japanese-occupied territories, at the following quantities: meat and bacon (carcass weight), 1,705,000 tons; tata and oils, 1,600,000 tons; flour, 1,475,000 tons; sugar, 1,833,000 tons; canned milk, 425,000 tons; powdered milk, 119,000 tons; and cheese, 96,000 tons.

Farmers in all countries have been urged to produce more food for a starving world, and every measure possible has been taken by most farm communities during the so-called "transition" period which is expected to last at least for another three years.

Wheat Situation

This Year's Crop Is Considerably Less Than Last Year

In the first official estimate of grain production in Canada for 1945, wheat planted at 321,400,000 bushels in 1944, when this new crop is combined with the estimated carryover at July 31 of about 238 million bushels, it gives a total available supply of 559,400,000 bushels. This is about 21 million bushels less than in 1944-45, and the smallest total supply since 1938. If exports during the current year are maintained at the 1944-45 high level of 350 million bushels, the year-end stocks in 1946 would be about 238 million bushels, or 12 million bushels less than in 1944-45, and the smallest total supply since 1938.

If the Canadian wheat supply in 1945-46 is considered in relation to that of the United States of 1,123 million bushels, 1,152 million record crop, plus 281 million carryover, the total North American wheat supplies amount to 2,013 million bushels, or about 165 million bushels less than the supply a year ago.

IMPROVE QUALITY OF POULTRY

By trapnetting, pedigree breeding and family testing, and individual and family selection, poultry flocks of high quality can be produced, says the Dominion Experimental Farm Service, Dominion Department of Agriculture at Ottawa and branch farms throughout Canada. Breeding stock of this quality is distributed every year among farmers and poultry keepers at reasonable prices and gradually the quality of poultry in Canada is being improved.

IF THE COUNTRY'S WHEAT SUPPLY IN 1945-46 IS CONSIDERED IN RELATION TO THAT OF THE UNITED STATES OF 1,123 MILLION BUSHELS, 1,152 MILLION RECORD CROP, PLUS 281 MILLION CARRYOVER, THE TOTAL NORTH AMERICAN WHEAT SUPPLIES AMOUNT TO 2,013 MILLION BUSHELS, OR ABOUT 165 MILLION BUSHELS LESS THAN THE SUPPLY A YEAR AGO.

4. Radar will not tell the farmer to cut his hay today; it will tell him he is in imminent danger of being damaged.

Says "The Forecaster," a Department of Transport meteorological division inter-departmental news sheet put out at Malton airport, near Toronto:

"Showers and thunderstorms, if sufficiently heavy, can be located within 160 miles of the station. With continuous or intermittent rain from middle clouds, results are more difficult to interpret, as the intensity of the reflected signal depends on the size of the raindrops and distance from the station."

The paper said:

"We are convinced of the value of the army investigations not only for armaments work but for general meteorological purposes. It is to be hoped our service will further investigate this method of obtaining information."

Seed Production Programme

Has Resulted In Canada Now Producing Seed For Export

SOON after the outbreak of World War II imports into Canada of several varieties of European field root and garden vegetable seeds were stopped. The Agricultural Supplies Board lost no time in taking measures to promote production in Canada of the seeds formerly imported from Europe, and to a lesser extent from the United States.

2. The Board arranged with Canadian growers of seed to purchase all they could produce that could not be disposed of through commercial trade channels at a price mutually agreed upon. The contracts were arranged in cooperation with the Seed Production Committee of the provinces. Since this program was introduced Canada has not only produced sufficient seeds for the kinds formerly imported to meet all domestic demands, but for several past few years has been a substantial exporter of these seeds to Britain and to the principal European countries. The Canadian grown seeds are of notably high quality.

The work of seed production has been directed for the Agricultural Supplies Board by the Seeds Administer, and for the Board, the Plant Products Division, and the Experimental Farm Service. The Provincial Departments of Agriculture, and the Canadian Seed Growers' Association have cooperated in a practical way in the whole program which has met with an encouraging measure of success.

Overall production of field root and vegetable seeds in Canada reached the highest point on record this year. There were, however, some reductions of those kinds of seeds on which surpluses had been built up. It is expected that substantial shipments of excess seeds will be made to Britain, some of the European countries, and to UNRRA.

The Seeds Administer says that production of timothy grass seed in Canada from the 1945 crop is estimated at about 16 million pounds, the largest quantity ever produced in the Dominion. It will be five million pounds more than in 1944.

The yield of Kentucky blue grass seed at 500,000 pounds will be 475,000 pounds more than in 1944. Canadian blue grass production for 1945 is placed at 323,000 pounds, 125,000 pounds more than last year. Pasture grasses will be 10 million pounds more than in 1944.

3. Its value will depend on how important it is for a forecaster to know what certain disturbances are at a certain time.

4. Radar will not tell the farmer to cut his hay today; it will tell him he is in imminent danger of being damaged.

Says "The Forecaster," a Department of Transport meteorological division inter-departmental news sheet put out at Malton airport, near Toronto:

"Showers and thunderstorms, if sufficiently heavy, can be located within 160 miles of the station. With continuous or intermittent rain from middle clouds, results are more difficult to interpret, as the intensity of the reflected signal depends on the size of the raindrops and distance from the station."

The paper said:

"We are convinced of the value of the army investigations not only for armaments work but for general meteorological purposes. It is to be hoped our service will further investigate this method of obtaining information."

Heirloom Stitchery

Ingenious Radio Set

Was Cleverly Concealed In Artificial Teeth And Worked Perfectly

In the American newspaper can be seen advertisements for artificial teeth. Until recent years they were described as "false" teeth and wearers unashamedly spoke of their "false" teeth. Nowadays an art of refinement is given to them by calling them "natural" dentures.

An English officer recently encountered a member of the Norwegian navy who had been released from a prisoner of war camp, and who had a set that could actually be called "false" teeth or more accurately "stainless steel" teeth. This set was made by the Norwegian man who had an upper set of artificial teeth. This Norwegian set he carried in his pocket, and if caught with it he could explain that it was a "spare" set, and he could and did pop the plate into his mouth when he felt the need to do so.

The remarkable thing about this plate was that while it was a workable apparatus for the purpose of mastication, it was a cleverly concealed radio receiving set. Into the fabric of the plate were completely embedded a small battery, a small antenna, and the unshaped piece of metal which would normally keep the plate in position provided terminals for earth and aerial, and on the other side was a connection for a single earphone. The latter was obtained from a German guard for a packet of cigarettes. The radio receiver worked perfectly, and the pick up was quite good.

Probably this was the most ingenious set in any prison camp, or anywhere else on earth.—St. Thomas Times-Journal.

London bridge, though frequently occupied, has occupied about the original site of Roman days. It was London's only bridge over the Thames until 1750.

TERMS CASH

Archie Boyce C.E. Reiber
Auctioneer Clerk

Son: "Which do you think women prefer—men who give in to them, or the other kind?"
Dad: "What other kind?"
Mechanic: "I miss the old suspensions since it's gone."
Foreman: "You missed it before, that's why it's gone."
He: "Darling, haven't I always given you my salary cheque on the first of every month?"
She: "Yes, but you never told me you got paid twice a month, you imbecile."

Customer: "You're certain that this century plant will bloom in a hundred years?"
Clerk: "If it doesn't you can bring it back."

Father: "Why were you kissing my daughter in the dark last night?"
Swain: "Now that I've seen her in daylight I wonder myself."

Marty: "What's a fan dancer?"
Bert: "A madam with cooling system."

The church service was proceeding successfully when a woman in the gallery got so interested that she leaned out too far and fell over the railing. Her dress caught in a chandelier which was suspended in mid-air. The minister noticed her unimpaired position and thundered at the congregation: "Any person who turns round will be struck blind!"

A man, whose curiosity was getting the better of him, turned to his companion and said: "I'm going to risk one eye."

MINERALS AND VITAMINS

Minerals and vitamins are also important in winter pig feeding. The cereal grains are low in calcium (lime), hence the big need in pig rations is for lime or calcium supplements. Skim milk, buttermilk commercial concentrate and tanko meal are all supplied with calcium. Lacking these, limestone meal, calcining these, adding lime to the grain mixture at the rate of one pound limestone to 100 pounds of grain. Stiffness and crippling commonly develop if Vitamin D is not supplied, and lack of resistance to disease. Mixing one teaspoonful of a standard feeding oil in the feed daily for each pig will insure an adequate supply of both vitamins. The oil should be given until the pigs reach a weight of 100 to 110 pounds.

STATE SPENDS ALL OF GAS TAX ON HIGHWAYS

Renewed efforts will be made by the Alberta Motor Association to ensure that motor revenues of the province are used entirely for the maintenance and construction of highways. This is expected to be one of the main subjects for consideration when annual meetings of branches of the A.M.A. are held later this year.

Particular attention has been drawn to the matter through the disclosure that the state of Montana which seven years back had highway tax was far behind standard and now has built up a fine system of hard surfaced roads. This has been accomplished to a great extent by passing a law which states specifically that all gasoline tax revenues must be expended on highways.

When a delegation of Montana business men and road experts motored over Alberta roads recently, they told of what Montana had accomplished. They also found some sections of Alberta highways in inferior condition.

Customer: "You're certain that this century plant will bloom in a hundred years?"
Clerk: "If it doesn't you can bring it back."

Father: "Why were you kissing my daughter in the dark last night?"
Swain: "Now that I've seen her in daylight I wonder myself."

Boss to employee coming in late: "You should have been here half an hour ago."

Employee: "Why? What happened?"

After fifty, the amount of physical exercise and general activity is less than in earlier life. Energy or calorie foods such as fats, sweets, bread and cereals is less. The need for protective foods milk, eggs, fruits and vegetables remains just as great as during earlier years. A good rule to aid digestion and control is to eat four or five light meals instead of three heavy ones, but they should be regular meals, not nibbling. Something at each meal is desirable.

The Supervisor of the Home Economics Division, Alberta Department of Agriculture has prepared a leaflet titled "Aging" which may be obtained by writing to the Department of Agriculture, Parliament Buildings, Edmonton.

Boss to employee coming in late: "You should have been here half an hour ago."

Employee: "Why? What happened?"

No man can make a kilowatt hour in a day with his muscles alone, but Reddy Kilowatt supplies you with unlimited kilowatt hours at very low cost.

Take advantage of his low wages and let him do as much of your work as possible.

Several years ago a stationary bicycle was built to drive an electric generator. At numerous Electrical Shows many tried their hand, or rather legs, at generating electricity. At one show, 213 people pedaled the machine until they were tired, and their combined work produced only $2\frac{1}{2}$ kilowatts of electricity!

At Madison Square Garden a champion six-day

bicycle rider pedaled this same machine in a

desperate sprint of one minute. The meter showed

that he made about five-hundredths of a kilowatt hour.

If he and his team mate had kept up this sprint for

six days and nights (impossible of course) they

together would have made about 47c worth of

electricity — poor pay for a week's work for two famous athletes.

More Knowledge Needed

One of the most interesting, though disconcerting, features of the behaviour of annual weeds is the ability of their seeds to remain dormant in the soil. We sow oats and buckwheat without the slightest fear that they will persist as weeds; yet canola and turnip beet when rank among the very worst.

Most of us would naturally feel that all a seed needs in order to begin germination is moisture, warmth and air. Unfortunately, we can provide just the right conditions, so far as these factors are concerned, and yet get nothing happening. This is particularly true in the Prairie Provinces, but, occasionally, had more weeds in the fallow crop than in the seedbed after fallow.

Some light, though not enough, was thrown on this problem in a paper prepared for a recent meeting of the Western Canadian Society of Agronomy by Mr. N. G. Lewis, Crop Products Division, C.D.C., Alberta.

The results of experiments conducted by Mr. Lewis show that some of our common weed seeds require a period of drying before they will germinate. He states: "Drought has the effect of breaking dormancy in seeds, and, once germinated, they can remain dormant for years, and germinate when the conditions are favourable, intentionally, of course."

We still know too little about weeds and farmers should press for more research.

SOME TARIFF
INCREASES RESCINDED

In this column recently attention was drawn to the amazing action of the provinces in rescinding the tariffs on certain commodities, while at the very moment representatives of the Canadian Government were urging the world to adopt lower tariffs.

A great storm of disapproval which followed the proposal of the Government to rescind these tariff increases, with the exception however of one item, Diesel Engines, on which the tariff was raised 25%

It's the

CERTIFICATES
Every Week!

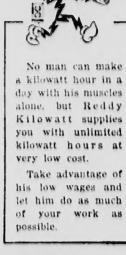

Space Donated by The
BREWING INDUSTRY OF ALBERTA

H. M. BOWMAN, DIDSBURY

These, therefore, who opposed the tariff increases should continue with their protests until the increase on Diesel Engines of 25% is itself also removed, for there is no more excuse for this tariff than there was for tariffs on other items which have now been cancelled.

The mere cancelling of these increases is not enough. If our farmers and all of us on these Prairies are ever to be prosperous, we must be able to export all that we produce, and this can only be done by Canada continuing to import freely large quantities of foreign goods, and these large imports can only be made when the existing high Canadian tariffs are sharply reduced, better still, eliminated altogether. No area in the world will suffer more if these high tariffs are maintained than our Prairie Provinces, no area will benefit more by the removal of these tariffs.

DO YOU KNOW HOW MUCH
A KILOWATT HOUR IS?

It is said in order to learn the value of anything, try to make one yourself. In the case of a kilowatt hour of electricity, you'll find it quite a task to even one.

Several years ago a stationary bicycle was built to drive an electric generator. At numerous Electrical Shows many tried their hand, or rather legs, at generating electricity. At one show, 213 people pedaled the machine until they were tired, and their combined work produced only $2\frac{1}{2}$ kilowatts of electricity!

WORLD HAPPENINGS BRIEFLY TOLD

Woolwich Arsenal has received its first big order for war medals—6,225,000 of them. The order will take two years to fill.

The Royal College of Physicians has awarded the Moxon Medal to Sir Alexander Fleming, discoverer of penicillin, for his work on the drug.

U.S. federal communications commission experts forecast that a "fairly good number" of television stations will go on the air during 1946.

The Canadian Army has handed over nearly 100,000 captured vehicles of all types to British officials, and some authorities announced at The Hague.

Secretary of State Martin said at Ottawa that remuneration of statutory holidays dropped for the war period is being reconsidered by the government.

A Paris Daily Mail despatch says the French government is going ahead with atomic bomb experiments and is planning to use the Sahara desert as the stage.

The Nobel prize has been awarded to Sir Alexander Fleming, discoverer of penicillin, and to Sir Howard Florey and Dr. E. B. Chain, co-workers of Sir Alexander.

One in every five Merchant Navy officers who went to sea during the war lost his life, Capt. W. H. Coombs told the annual meeting of the Merchant Marine Officers' Federation at London.

The population of Japan was estimated by the Home Ministry at 77,597,012. The Ministry based its figure on last year's census which was undisclosed because it was "a military secret."

Didn't Believe It

When The Queen Mother Mary And The Duke Of Windsor Made An Informal Call

James Kirby, who works for the gas company and lives in East London, was enjoying a nap after dinner when his wife called at the bedroom door and said Queen Mother Mary and her son the Duke of Windsor, formerly Edward VIII, were calling.

Mr. Kirby, who turned to his wife, "Get on with you," turned over on the other side and went back to sleep. Later Mr. Kirby explained that he is a man who eats hearty and sleeps heartily, and he had had lamb for dinner.

After all the changes and times it is apparently still the same England about which Edmund Burke said, "that every man's house is his castle, even if it is a hotel in sad repair."

The rain may enter and the wind may enter, but the King cannot enter without the occupant's permission. The house in East London in which James Kirby slept so soundly was recently the scene of the most popular model houses in the city's worst blitzed area, and Queen Mary and her eldest son were on a tour of inspection.

Still, it may not have been altogether a question of English liberties and English privacy. Almost any foreigner, citizen or not, from sound and map after hearty Sunday chicken dinner would respond in just one way to the announcement that President Truman was calling. He would say, "Oh, yeah?" Tell him "It's busy, and beat it" which is the American language equivalent for "Get on with you."

Sometimes life is stranger than fiction, as in the case of the distinguished English critic Sir Walter Raleigh, who visited this country around the First World War. It is told that Sir Walter got off the train at one of the university towns and missed his faculty representative who had been sent to meet him.

He turned to information to the station master. "I am Sir Walter Raleigh," he said, whereupon the other man looked hard at him and begged to be excused, because he was Christopher Columbus and had just been sent for by Queen Isabella. Well, perhaps not life, but life plus a touch of fiction.—New York Times

HIS REGULAR ROUTE

A motorist was proceeding along one of the main roads of a small town in Stratfordshire when the driver of a coal cart in front suddenly turned to his right, down a side street.

After carefully avoiding a collision the driver managed to know why the coal man didn't pull his cart in to indicate which way he was going.

"Don't be so deaf," he replied, "we always go down that street."

AN EMPIRE SCHOOL

An Empire radio school for Commonwealth air forces to ensure progress in radio instruction and to train signals officers instructors and signalmen in their several branches, is being formed at the R.A.F. station at Duxford, Essex, England.

Pumpkins were cultivated by the Indians long before Columbus sighted America. Early settlers found them growing in what is now New England.

Sunken Battleship

German Battleship Tirpitz Lying In A Fjord In Norway

The sunken battleship Tirpitz, former pride of the German fleet, probably will remain in a fjord near Tromsoe, Norway, as a tourist attraction, Commandant Peter Breidaberg said.

The Norwegian naval officer said the wrecked battleship, sunk by R.A.F. "earthquake bombs", had been inspected by British divers and all salvagable material had been recovered by them or the Germans.

What's left of the rusty hull, still full of bodies of German seamen, is not worth cutting up for scrap.

Tromsoe was a great tourist place before the war and probably will remain so, Commandant Breidaberg said. "We can leave the Tirpitz where she is and run excursion boats out to her."

MEET A CWAC

Information has been received from National Defence Headquarters that Major Mary L. McIlvane is retiring from the C.A. (C.W.A.C.) Major McIlvane, whose home is in Lethbridge, Alberta, was appointed to the Canadian Forces in 1941 and promoted to major in 1944.

One in every five Merchant Navy officers who went to sea during the war lost his life, Capt. W. H. Coombs told the annual meeting of the Merchant Marine Officers' Federation at London.

The population of Japan was estimated by the Home Ministry at 77,597,012. The Ministry based its figure on last year's census which was undisclosed because it was "a military secret."

CHRISTMAS PARCELS FOR CWACS OVERSEAS

With the passing of Indian summer and the leades skies forecasting cold, snowy days to come, it doesn't seem like a happy return for those who are not many shopping days until Christmas. But with the thought uppermost in mind, the Women's Auxiliary to the C.W.A.C. and members of the C.W.A.C. get together one night recently and packed over 30 parcels for our M.D. 12 girls overseas. The articles included were such items as cosmetics, soap, chocolate bars, Kleenex and other commodities attainable overseas, were packed and sent off, to bring a little touch of home to their Christmas.

Even with the war won, there is so much work connected with bringing home our boys, so the girls are working over there, helping to speed up their return; to saying nothing of their work in connection with Auxiliary Services working in different countries. The girls are not impressed by the Japanese who are being treated like savages. So it's "Good luck, soldier girls and a Merry Christmas from your friends back in Canada."

CWAC CRACK SHOT

Captain Lois A. M. Betterill, of Red Deer and Calgary, Alberta, and at present Commanding Officer of No. 1 Administrative Unit, C.W.A.C., Red Deer, Sask., an expert marksman, is a member of the Officers' Recreational Shooting Club she had been awarded crests by National Defence Headquarters, namely: first class, marksman and expert. In order to qualify for the expert crest, 10 targets of over 90 out of 100 must be obtained. This is a better score than the average soldier. Capt. Betterill is at present organizing a Recreational Rifle Shooting Club for other ranks.

DISCHARGE OF CWAC PERSONNEL

Married personnel of the Canadian Women's Army Corps who wish to leave the service for the purpose of returning to civilian life will have the opportunity for an early discharge if exigencies of the service permit, it was announced recently by the Department of National Defence. Accelerated discharges are already being granted to C.W.A.C. personnel married to men serving overseas.

Applications for discharge under the policy announced must satisfy the commanding officer of their intention to set up homes. If their services can be spared the discharge will be expedited. Both officers and other ranks can apply under this policy.

SHE'S IT EVERYTIME

Major, checkbook in her pocket letter; Correction here, Pte. Buttercup, I referred to the intelligence officer.

Pte. Buttercup, I thought you said intelligent officer, sir?

Major: Don't be so stupid, who ever heard of an intelligent officer!

WEARS SAME DAY HE BOUGHT 33 YEARS AGO—G. F. Grinshaw purchased this hat 33 years ago from Tommy Burns, heavyweight boxing champion, who had a store in Calgary. Mrs. Grinshaw still wears the same hat.

Did Invaluable Job

Atlantic Ferry Service

Wife Of Coast Watcher In Pacific Impressed Maritime Measure Was Idea Of Late President Roosevelt

The coast watchers of the south Pacific earned the respect of every fighting man who came in contact with them and none was more honored than Bobo Boyce, honorary third birthday in President Roosevelt's Royal British with warships of the Royal Naval Service and one white woman on Vanuatu Islands.

One of the watchers whose activities were top secret during the war, Mrs. Boyce transmitted to radio news of the weather and of Japanese ship movements, and also helped to keep Japanese planes from destroying Allied supply ships.

In small scale battles on the Japanese Islands on which they were hidden in a cleft watched and helped nearly 4,000 Japanese took 74 prisoners and rescued more than 500 Allied airmen.

Mrs. Boyce remained on Vanuatu with her husband, who had worked for a lumber company there. Her radio equipment was taken away and she became a widow.

But Mrs. Boyce was not impressed. The Japanese kept busy by breaking Allied opposition and never arrived to punish her.

GUESTS SEARCHED

The British and American Imperishable last \$5,000 worth of articles of sumptuous when the ship was thrown open to public inspection at Vancouver Oct. 11. Officers of the United States cruiser Portland took care that that wouldn't happen again. When the Portland was opened at Victoria, British Columbia, it was searched by everyone with that of Major F. J. Ricketts, R.M., and on the recent announcement of his death it may not have been realized to the full how irreplaceable was the loss sustained by the British military and brass band music association in Scotland.

The time that has been made so famous the world over had its inception on a goliath links in Scotland.

After a full day on the course, Alford was so struck by the continual shouts of "Hoors" mingled with the whistling of the call girls that he notes C and A, that the idea of "Colonel Brandy" — starting on these two noted immediately took shape in his mind.

Tin teams easily with other metals to form hundreds of useful alloys.

REG'LAR FELLERS—A Sensitive Soul

Health League presents TOPICS OF VITAL INTEREST

REHABILITATION WORK

The Rehabilitation of every veteran as a difficult problem child, it is stated in a report issued by the Committee on Rehabilitation of the Health League of Canada.

"It is a fact that the majority of returned servicemen—especially those back from combat service—are physically handicapped, some severely and permanently, at work," the report says. "They have well-balanced personalities. They are resilient. They are adjusting themselves quickly to civilian life, and management is discovering that they have high standards of loyalty and team spirit. In many cases, these veterans will be able to teach management a lot about such matters as co-operation."

In the cases of the "few" who need special handling, the report advises that "you do not have to be a psychiatrist to help them. They can be helped with common sense—good leadership, good personnel.

The report describes in detail the cases of a few men who found it difficult to settle down and tells how plane personnel aided them in preparing.

Unknown Heroes

Air Sea Rescue Service Attained State Of Efficiency

During the Battle of Britain, when most of the fighting took place over the English Channel, a little known branch of the R.A.F. which, equipped with a few peace-time motor launches and obsolete warplanes, rescued many a gallant member of the "Glorious Few" shot down by enemy planes over the Channel.

By the time of the Dieppe operation in 1942, the Air Sea Rescue Service had attained a high state of efficiency with special equipment for life-saving and search.

Figures just released show that nearly fourteen thousand R.A.F., R.C.A.F. and United States airmen members were rescued from the sea by the alert and watchful Air Sea Rescue Service.

It is a proud record of grace and skillful, most amazingly engaged on the part of the rescuers, indifferent to foul weather and enemy action. Not less heroic were they than the gallant men whose lives they saved.—Hallifax Herald.

An airplane is required by law to fly at 1,000 or more feet over congested areas.

SHE KISSED GEN. EISENHOWER

With an audience of more than 20,000 persons at Wiesbaden, Germany, Betty Basing of Middlefield, Conn., gave Gen. Eisenhower a kiss on his 50th birthday. Betty, 23, a cheerleader at a football game in Germany, climbed into the general's box and planted the kiss—"on impulse", she said later.

Jade Carving

Hardness Of Material Makes It Difficult To Handle

Jade, like the other semi-precious stones, is cut into shape by means of sawing, drilling or grinding, and for this preparation the craftsman uses special equipment for life-saving and search.

Figures just released show that nearly fourteen thousand R.A.F., R.C.A.F. and United States airmen members were rescued from the sea by the alert and watchful Air Sea Rescue Service.

It is a proud record of grace and skillful, most amazingly engaged on the part of the rescuers, indifferent to foul weather and enemy action. Not less heroic were they than the gallant men whose lives they saved.—Halifax Herald.

Potatoes were first discovered by white men in Colombia, South America, in 1538.

ALWAYS DEPENDABLE!

OUR COMPLETE SHORT STORY — SWEET SORROW

BY JEAN CRAIG

Copyright Wheeler Newspaper Syndicate

Anthony stood in the summer darkness, shrouding Dora's veranda, smoking, tipping his ash into the garden below and watching the sudden red glow as it puffed. "The child, the most sweet had told me, 'thee between you and a girl, I'm offering you the contract first. Do you want it?'"

"Want it?" Anthony had almost leaped into the air. "Want it?—man, I've been working for this all my life! This way I want it!"

The same man with the Hollywood suit, who had been sending the Drama Festival of the night before with a movie contract in his hand, smiled quietly. "All right, then, I'll bring the papers around for you to sign tomorrow."

The fat man had shaken hands and left. Anthony had followed him and had a little dazed from the visit, not quite believing what had happened. That was the trouble when you had dreamed about a thing too long. All through the years of Little Theatre before the war, his concert tour with Mr. Anthony, he had been studying, working with the legitimate stage or Hollywood at the back of his mind. Now, he thought wryly, he could start a scene with the best, or worst, of them.

He, Ronald Anthony, in pictures! There had been so many others who had made good. He could do it, too. He had had the best training. He had gone past the stage of being a series of wands and tricots; now he knew it was a living, breathing character that walked on the stage.

But—Dora. They had planned to get married next year, as soon as his office job developed into something a little better. They had been the props of the Little Theatre group in their city before the war... Dora had been a part in one of the productions at the Drama Festival the previous evening.

They had both practically given up anything coming of their acting now. Resolved to settle down, treat the theatre only as the fascinating hobby it was. Now what? The agent, Lorne Eddy, who had dismissed him, had mentioned a contract offer, following marriage for three years. They couldn't take chances in building up a young romantic star and then have him spot their publicity.

Anthony paced nervously up and down the veranda. Three years! That was a long time to wait, especially when she had a career now. There had never been anyone else through school, through the depression. She had written to him faithfully when he'd been in Italy, England, Holland, but you just couldn't keep a girl hanging around forever, promising.

Maybe he'd gone past the promising young actor stage. What if he went away, became just another bit actor? He was assailed with the old fears of someone else taking Dora when he was while overseas. Lord knows who she wasn't married someone else already—there were plenty who wanted her.

He had a raise coming. They could be happily married and settled down to raising a family next year. That way away that security for a chance to marry, for the other hand, if he didn't go would he be bitter? Would he somehow think that Dora had stood in his way?

He pushed the doorknob three times, the way he always had, and shouted down the hall, "Come on out on the veranda! It's—It's—"

He heard Dora's heels tapping down the hallway. It would be polished smooth—Dora kept her house beautifully clean, in between times of earning a living, sending her younger sister through school.

She was wonderful, all right. He felt her come up beside him on the veranda, drop a soft kiss on his cheek, her face turned up, waiting to be kissed. When he had finished, he was trembling, filled with infinite sadness and fear. Not to know that for years? Not to know in her looking up at him, that he was like a hawk, like a tiny Hawaiian dove. He was in love, that was all there was to it.

"No," he muttered fiercely to himself. "What did you say, dear?"

"Just merriment," he smiled. He could tell her, he knew she would insist on him telling his opportunity. Not stand in his way.

As soon as he left her that night, he phoned the hotel where Jenkins, the agent, was staying.

"Hello—who is it?" asked the agent in a slightly sleepy and peevish tone.

"It's Anthony. I just phoned to tell you I won't be taking the contract."

"What?—don't be a fool!"

"There are different kinds of fools," said Jenkins, "but I'm not one of them. I'm sorry and thinks all the same."

There was a silence at the other end of the line. "All right," said Jenkins. "You know what you're doing."

Anthony went to bed, burrowing and feeling happier than he had all day. What if he had turned down his chance? He had made sure of Dora... and Dora was the most important thing in his life. He slept soundly, rushed through a busy day at the office and came home next evening feeling like a kid again.

Dora was waiting for him at his boarding house. For a startled moment he thought there was something wrong, but she threw her arms around his neck, cried, "Oh, darling, I'm so happy!" A wonderful thing had happened! She snuggled close to him, smiling. "But I'm going to miss you, dear."

He held her away from him, starting, throat dry.

She waved some papers under his nose. "Look! Isn't it grand? There was a movie seat at the Drama Festival the other night and he's just signed me to a three year contract!"

Church Bells

About Ten Thousand Were Confiscated in Poland

According to a report recently sent by V. Mylak of Prague to the NCWS, about 10,000 bells were confiscated from the Catholic churches in "Sachsenhausen" by the German authorities during the war.

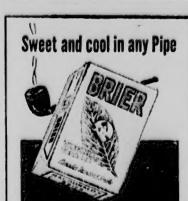

A greater number of these bells cannot be returned as they were used for the production of German guns.

Only a small number was left still in Prague's warehouses. Fortunately, among them are some of the oldest and most valuable.

LONG SERVICE

After completing 60 years in the service of one family, Robert Jacobs, 80, has retired. Mr. Jacobs entered the employ of John M. Gill, Brookville, Ont., in 1883 as a coachman and since Mr. Gill's death he was chauffeur for his son, Col. R. J. Gill.

The average depths of oceans is about 13,000 feet.

Dunville, Ont., has novel things

happened. On Sept. 18 last Mr. and Mrs. George Robins celebrated their 50th anniversary.

Mr. and Mrs. Al Ferman, her 52nd and her daughter, Mrs. Wm. Long, the fifth all on same day. ... At Merton Man, the firm of Gladstone & Sawatzky changed its name to Sawatzky & Gladstone. ... Osgoode Alberni, B.C., Morris Alberni caught a trout 10 inches long in his net, from which 10 lbs.

shallow water had been taken.

The little town of Cabot, Sask., (pop. 435) shipped over 125,000 lbs. of salvaged towards the war effort in four years.

The Smith Falls Record News

tells that the boy of Mr. and Mrs. Peter and Son, Elmer, born 3 years ago, there was hatched out a queer

thing with a duck's body and head, and the feet of a hen, and it is still

trotting around. ... Always worthy

of mention, Mr. and Mrs. George McFarlane of Almonte, Ont., recently sold their 200-acre farm to a nursery.

... There were ducks galore at McDonald's Lake, Sask., where a farmer threshed 200 bushels of barley.

He left it lying in the field, the next day he came to haul it home, and there were only 120 bushels left.

They're staunch eaters out west, those ducks.

* * * signs of womanly initiative and courage. Mrs. Katherine Marton, editor of the "Elora Gait," has had awarded the Lorne Eddy trophy for the best editorial page in the smaller weekly newspapers, was widowed four years ago when her farmer-husband died, leaving her with four children. She and her two sons and two daughters helped with the housework while she reported the news and wrote the editorials, and added to the circulation. She deserves every success in life.

* Isn't this cute, from the Leader at Carmarthen, Man.: Why, I heard of a man who got his pipe so buried in some trash that he could hardly find it. He took a match and lit it, but the pipe was so dry that it burst into flames. In fact, it could have been mother who discovered it!

* Rev. Anton A. Nelson of Redgranite, Sask., stopped his car by the side of a road and lit a match to burn a berry to take a smoke. Unfortunately there had been an attempted burglary and a posse that was out to get the culprits, came upon the car and in mistakes identified two shotgun blasts at the rear of the vehicle as shots fired by the gentleman in it. He roared away and shook off the posse. Later he was flagged by the Mounties. The fiasco came to an end, and all was forgiven and forgotten.

* Restougeche county of New Brunswick is proud to proclaim the fact that they have contributed more than 1,000 cases of clothing to the clothing drive for destitute Europe.

* How the mighty have fallen! The home which W. G. Mellor is moving into in Shambayon, Sask., from his farmstead, was once the Merchants Bank at Dollard, Sask. Later the Banque d' Hochelaga and later still the Banque Canadian Nationale.

And then there's the story about the school youngster, asked to name the Great Lakes, who replied: "Superior, Michigan, Huron, Erie, Ontario and Veronica."

Those who bring sunshine to the lives of others cannot keep it from themselves.—J. M. Barrie.

The one who acts in love is ever the one who is always doing considerate small acts.—F. W. Robertson.

* * * SURE OF A JOB

LOCAL NEWS

-K. Roy McLean, Optometrist, will make his next regular visit to Didsbury at the Rosebud Hotel, on Monday morning, December 3rd. Consult City office, 102, Second Blide, Calgary, daily except Monday and Tuesday.

Born on Nov. 9th at Lampman, (Sask.) Union Hospital, to Mr. and Mrs. Leslie Barnard, formerly of Elkton, a daughter, Joyce Ann.

Mr. and Mrs. D. A. Stewart with their two sons, and their oldest daughter, Evelyn Gertrude, to Mr. Richard John Page, eldest son of Capt. and Mrs. E. Page of Didsbury, in the Cartwright United Church at 3 p.m. on November 28, 1945.

Mrs. W.E. Stiles attended the funeral last week of her mother, Mrs. James Dowler, who passed away as a Veteran, Alberta, and was buried at Banff on Thursday, Nov. 14.

Mrs. J.W. English returned to her home in Calgary after spending a week with her parents, Mr. and Mrs. D. Sinclair.

Miss Wynne Moon, who is training at the Holy Cross Hospital, was home on Sunday.

Mrs. Lou Botes received a letter from Mrs. Wesley Smith of Blackfalds, Alta., announcing the birth of a son "Jimmy" on October 30th in Blackfalds hospital. Wesley has been position on the Dairy farm of Mr. B. Ellwell.

Don't miss the Bazaar of the Lutheran Ladies' Aid to be held in Knox United Church basement this Friday afternoon, November 23rd, beginning at 1:00 p.m. Lunch will follow.

Mrs. H. McCullough, McCullough's clothing, was a business visitor in Calgary Tuesday.

Mr. T.N. "Chubby" Scott, who has been employed at Portland, arrived in Didsbury with his family last week and he will work with his father, T.E. Scott.

Mr. and Mrs. Bill Ranton and Mrs. E.G. Ranton motored to Calgary Monday and returned Tuesday.

Mr. and Mrs. Oscar Snyder and Family.

Stanley Janzen is out after the big moose.

Tom Lemon wishes to advise the people of Didsbury that he will have Christmas Trees this year, as usual, at Jenkins' Grocereria, 16

Mr. Ward Sherrett left by plane Saturday for Huntington Park, Calif., where he will study voice and music at Pacific Bible College. Miss Irene Boger, Miss Joan Bersch and Harvey Stevens accompanied Ward to Calgary airport.

The Junior and Senior W.A.F. of Knox United Church will hold the Annual Christmas Sale of aprons, lacework and home cooking in the basement of the church at 2:30 p.m. on Saturday, December 1st. Tea will also be served.

Mrs. W.K. Nelson, who has been visiting with her sister, Mrs. Ervin Rodney, has now moved to town.

We see Sherrill Nelson is home again from overseas. Welcome home, Sherrill.

Leonard Berscht returned last weekend from a hunting trip with a party of huntish hunters west of that town. The snow was deep in the woods and the party reported a good trip but no luck.

The fire bell sounded Friday afternoon when flames broke out in the attic of the Oscar Snyder residence in town. The fire brigade was on the job in short order and soon had the blaze under control, but considerable damage was done to the roof, and from water and charring.

Miss Wilson's Sunday school class of Knox United church went on a toboggan party Sunday afternoon south of Wm. McCays and all report a good time.

Listed among the naval personnel discharged from HMCS "Tremulus" during the past week are A.B. J.C. Schumaker, and L.Wren (SA) Lois J. Reynolds (nee Lois Edwards). Lois arrived home Friday to visit with her parents, Mr. and Mrs. D. Edwards.

Mrs. Elma Good reports that they have moved from Garfield and will reside in Didsbury in future.

M.B.C. CHURCH NOTES

Rev. Peter Waldin will speak at the Young People's Service Sunday, November 25th at 7:45 p.m.

His theme will be "Is Christianity?" Be sure to hear this message. A cordial invitation and a warm welcome is extended to all.

The Society has been reorganized. Mr. Ira Luck, President; Miss Velma Traub, Vice-Pres., and Elvern Swalm, secretary.

Mr. and Mrs. Oscar Snyder and Family.

EVANGELICAL CHURCH NOTES
"What Must I Do to Be Saved?" will be the theme on Sunday, Nov. 24th at 10:30 a.m. This is the most important question we can ask, and our answer to it determines our eternal welfare.

Sunday school will be held at 11:30 a.m., and at Bethel at 2:00 p.m. Church service at Bethel at 3:00 p.m.

The Women's Missionary Society will hold a Thank Offering service at 7:45 p.m. This offering will go for missions. Mrs. A. M. Amacher will bring the message. We invite you to come and worship with us.

The Albright Brotherhood will meet on Monday, Nov. 26th at 4:00 p.m. All men are invited to attend.

IN MEMORIAM

In Loving Memory of Mrs. Elizabeth Wisley, of Wondendale, who passed away Nov. 22, 1943. Two years have passed since that sad day.

When the one we loved, was called away;

God took her home, it was his will,

But in our hearts she liveth still.

Ever remembered by her Loving Sons and Daughters

NOTICE

I hereby give notice that I will not be responsible for any debts or obligations contracted in my name, or by anyone bearing my name, without my written authority.

O. W. STAUFFER.
